MAULE'S SEEDS

ALWAYS GROWN
1922

We thank our old customers for their past patronage and look forward to a continuance of same. Every new customer is assured of our endeavors to satisfy them and make them permanent buyers of Maule's seeds, plants, etc., year after year.

THIS BOOK IS A READY REFERENCE PRICE LIST

not a catalogue. For full description of the seeds, plants, roots, etc., see Maule's Seed Book for 1922, a copy of which will be sent you on request, if you have not already received one. You will note the reduced prices quoted in this list are for market gardeners and florists only.

Reduced Prices to Market Gardeners and Florists

Maule's prices are more reasonable than ever and are doing their part in the trend toward lower costs. You will notice that many prices quoted are lower than last year, though Maule's Seeds, Plants, Implements, etc., have always been unusually reasonable, quality considered—thanks to the MAULE "Direct-to-the-Planter" idea. Maule's Seeds are more than "Seeds," they represent years of research, expert attention and infinite precaution in tests.

For years it has been our policy of supplying the best strains of seeds, plants, etc., obtainable to market gardeners and florists.

For Parcel Post rates see page 4 in the MAULE SEED BOOK, as often seeds, etc., can be sent cheaper by parcel post than by express.

Special Terms

Cash with order, or satisfactory bank reference. Money may be sent by post office or express money order, draft, check or registered letter. We will send C. O. D., by parcel post or express, orders amounting to \$15.00 or over if one-fourth of the amount is remitted with order to guarantee acceptance. We cannot send C. O. D. by freight.

Freight Paid Anywhere in U. S. A.

on all orders amounting to \$10.00 or more, provided the order is for small seeds only. Peas, beans, corn, potatoes, plants, roots and onion sets are not small seeds; prices given on same are for delivery f. o. b. cars or boat Philadelphia, customers in all cases to pay the transportation charges from Philadelphia to their own railroad station. Remember, we make no charge for bags or packing.

What Maule Does

We Prepay Shipping Charges in the U. S. A.

small seeds amounting to \$10.00 or over. Transportation charges are not prepaid on orders containing peas, beans, corn, potatoes, roots, vegetable plants, onion sets, nor on spraying materials, sprayers, tools, etc.

We Make No Charge

for bags, boxes, crates or packing, nor for delivery to freight, boat or express offices in Philadelphia.

We Will Ship Your Order Promptly

to order all the seed you will need at once, so as to have your full supply reserved. If you wish, we will ship the seeds for early planting at any date you name, and hold the balance of your order to be shipped later.

We pay freight or express charges, our option, to your nearest railroad station on all orders for

You will find it advantageous

Maule's Tested Seeds

Every new strain is tried out, and close attention given to the development or improvement of old favorites. Such care is at the foundation of the reputation that Maule's seeds, plants, etc., have won, "Once Grown, Always Grown."

For tests of new seeds and experiments with older strains we maintain extensive trial grounds at Newfield, N. J.

For proving before planting, every lot of seed that comes into our warehouse is subject to a germination test. No test will warrant a guarantee that seeds will grow. Results must depend upon weather, soil conditions and cultivation. We do all we can to start you right.

Our Store

We have opened a large store on the first floor of our seed house, where we are enabled to render prompt and efficient service to those who wish to call for their seeds or bulbs and for whose benefit we have added a full line of gardening tools, spraying materials, sundries, etc. If inconvenient to call, and you wish goods sent C. O. D., orders by phone will receive prompt attention. Phone Bell, Spruce 4634 or 4635.

What You Should Do

Order Early

Be sure to get your order in early. While our supply of seeds, plants, roots, etc., should be adequate, yet the demand is certain to tax us heavily. The earlier you order, the more certain you are of having seeds, plants, roots, etc., exactly when they are needed for proper planting. Mail, express and freight are sometimes delayed, so order early.

Accurate Address

Write your full name and complete address on every order. Give your post office address and name of state and county.

If you have a post office box or live on an R. F. D. route, please give the number. If the goods ordered are to go by freight or express, give shipping directions and the name of the railway station where goods are to be delivered.

The safest way to send money is by post office money order, express money order or bank draft. On all amounts of \$1.00 or over you may purchase your money order or register your letter at our expense. Stamps will be acceptable as cash.

Maule's Remarkable Four Leaf Clover Guarantee

1. **Safe Arrival.** We guarantee that all goods, except perishable plants, will reach the customer in good condition.

2. **Money Insured.** We further hold ourselves responsible for the safe arrival of all remittances sent by post office money order, express money order, draft, check or registered letter.

3. **As to Delivery.** We guarantee to deliver free of all transportation charges to your nearest railroad station in U. S. A. all orders amounting to \$10.00 or more, if for small seeds only. On orders for small seeds less than \$10.00, or for peas, beans, corn, potatoes, onion sets, roots, plants, tools, etc., we will not pay carrying charges, but such articles as can be mailed, we will deliver by parcel post if you will remit the amount of postage required with order.

4. **As to Crops.** Under the varying conditions of soil and climate, it is absolutely impossible for any seedsman to guarantee the results of seeds, bulbs or plants. We, WM. HENRY MAULE, INC., therefore, in common with all American Seedsmen, give no warranty, express or implied, as to the description, quality, productiveness or any other matter of any seeds, plants and bulbs we send out, and we will not be in any way responsible for the crop. We cannot, under any circumstances, assume responsibility for more than the actual price paid for seeds, plants or bulbs. If the purchaser does not accept the goods on these terms, they are at once to be returned; but we do guarantee that we will use every effort to send you the best seeds, plants and bulbs procurable, of such varieties as you may order.

THE MAULE SEED BOOK FOR 1922

is pronounced by one and all the most complete seed catalogue ever published in this country. It not only contains a full list of everything worth growing in Garden, Field and Flower Seeds, but also contains a list of Summer Flowering Bulbs, Plants, Small Fruits, Garden Tools, Fertilizers, etc. Tell your friends who do not know Maule's Seeds to send us their address on a postal card, and we will be only too glad to mail them a copy FREE.

Maule's Frost Proof Cabbage Plants

Because they mature heads which can be marketed two to three weeks earlier than your home grown plants
and you get early market prices

The seed is planted in the open field in the south; the plants make a slow but steady growth, until at 8 to 10 weeks of age they are very tough and hardy, the buds are purple and the outer leaves a reddish brown. When in this condition they can be shipped further north. These plants have stood a temperature of 8 to 10 degrees above zero without injury; the land freezing, or the plants being covered with ice, sleet or snow, after they were planted, did not injure them.

The top of the plant does not grow until your regular spring weather opens up, but the roots grow from the time they are planted. Headed cabbage is ready 10 days to 3 weeks earlier than from any other plants.

Our cabbage plants are grown from the best Long Island grown seed and are shipped direct from our growing stations in the south by parcel post. We can fill orders from Dec. 1st to April 20th.

To get the full advantage of these frost proof cabbage plants they must be planted a month or six weeks earlier than you would plant home grown plants.

Order early and state about what date you wish your plants sent. We will ship just as near the time desired as weather and other conditions permit.

100 of any one kind, 50 cents, postpaid; 500 of any one kind, \$1.75, postpaid; 1000 or more of any one kind, \$3.25 per 1000, postpaid

Order in even hundreds or thousands, viz., 100, 200, 300. Not 150, 250; etc.

If larger quantities are wanted, than listed in this price list, write for special prices

Will Double Your
Profit — Why?

Please Remember Your order must first be sent from our offices in Philadelphia to our growing station in the south, and it will take several days to reach there after we receive it. Plants cannot be pulled and shipped in rainy or freezing weather, when wet they heat too rapidly. We sometimes have a week or ten days of continued wet weather which prevents shipment. Your order will be accepted with the understanding that you are willing to allow for delays, such as explained above, over which we have absolutely no control.

Read Carefully Before You Order Varieties. We can supply frost proof cabbage plants only in the following varieties: Early Jersey Wakefield, Charleston or Large Wakefield, Early Flat Dutch and Succession. No plants shipped C. O. D. No less than 100 plants sold. No plants shipped by express. We do not advise shipments of frost proof cabbage plants by express, but if you are willing to assume the entire risk will quote prices on large quantities, on request, for express shipment.

Maule's Giant American Asters

ASTERS are one of our specialties. Our list comprises the finest American sorts grown; it is impossible to procure better quality anywhere. Asters are the most important outdoor commercial flowers. They are easily grown, stand rough handling, have splendid keeping qualities as a cut flower and come in colors most useful to the florist in summer.

ASTERMUMS A beautiful new class of the comet type.

Flowers are large, with long, gracefully curled petals. Unrivalled for table decoration, and particularly appreciated as cut flowers.

1112 NEW RED ASTER "SENSATION"

Dark rich garnet or ox-blood red. Grow 18 to 24 inches high, well branched and covered with flowers which show up well when cut. Entirely distinct, being the reddest of all red asters. 1/8 oz., 40 cents; 1/4 oz., 75 cents; oz., \$2.50.

1080 PEERLESS PINK

The plants are robust, branching habit, 24 to 30 inches high, bearing globular-shaped flowers measuring 4 to 5 inches in diameter and of great depth and densely petaled. The center petals are prettily incurved, while the wide, outer petals reflex, making a most artistic flower. The color is a very pleasing shade of rich shell pink. It blooms about the middle of August, being at its best during the early part of September. 1/8 oz., 35 cents; 1/4 oz., 60 cents; oz., \$2.00.

SEMPLE'S GIANT LATE BRANCHING

These admirable asters give late flowers, blooming just before the chrysanthemums. The tendency to form numerous branches gives the class its name. The flowers are 4 inches in diameter, borne on long stems and are showy.

Stim-U-plant

A plant food in tablet form. The most modern, efficient and scientific method of fertilizing growing plants. Stim-u-plant Tablets are designed for use by all who grow plants—home gardeners, market gardeners, small fruit growers, fruit growers, florists and farmers. Their most valuable use is in feeding the growing plants. Being composed of water soluble materials of great feeding power and of known weight and percentage of plant food, Stim-u-plant Tablets can be used directly to the soil at the base of the plants to feed them definite amounts of available food. Once in the soil they immediately dissolve and mingle with the soil water, pass into the root-hairs and roots to begin feeding the plants. No matter how fertile the soil may be Stim-u-plant is effective in feeding the crops because of its rich, available food content. Stim-u-plant Tablets are packed in five sizes. Trial size, 12c.; small size, 25c.; 100 tablets, 75c.; 500 tablets, \$2.00; 1000 tablets, \$3.75; each size postpaid.

DRY LIME SULFUR

**For Dormant and
 Summer Spraying on
 Fruit and Shade Trees**

KEY BRAND DRY LIME-SULFUR

WHILE this excellent product has been on the market but a few years, yet it is fast taking the place of the old Lime-Sulfur Solution, for it has all the virtues of the latter

and none of the disadvantages entailed in its use, such as, excessive weight (600 pounds to the barrel), disagreeableness of handling, waste, and the leakage and danger of

freezing when carried over the year.

Key Brand Dry Lime-Sulfur is made by evaporating Liquid Lime-Sulfur Solution, producing thereby a powder that is readily soluble in water and most convenient to handle and store. It does not deteriorate, crystallize, or show sediment, and will keep for years without losing its effectiveness, if the package is kept sealed. Being a powder, it cannot freeze, and is convenient to handle and haul, which is not the case with the Liquid Lime-Sulfur. Its advantages over the solution are appreciated by growers who have used both, and it is only a matter of time before **Key Brand Dry Lime-Sulfur** entirely replaces the liquid.

Key Brand Dry Lime-Sulfur is not much more expensive than the solution, and the slight difference in cost is more than made up in the

greater facility for using, handling, and storing. Also, there is no leakage, which invariably occurs with the liquid. In addition to this there is great saving in freight, and when all things are considered, the grower who uses **Key Brand Dry Lime-Sulfur** will be better satisfied at very little additional cost.

Its preparation for use in spraying is simplicity itself—place the required amount of powder in a spray tank, fill the tank with water, agitate, and the solution is ready for use at once.

Key Brand Dry Lime-Sulfur is effective in controlling the same insect pests as Lime-Sulfur Solution, such as San José Scale and other scale insects, Leaf Blister Mite, Peach-Leaf Curl, Apple Scab, Apple and Pear Canker Worm, Brown Rot of peach and plum, etc.

DIRECTIONS FOR USING

Dormant Spray for San José Scale, Oyster Shell Bark Louse, etc. Use 10 to 14 pounds Dry Lime-Sulfur to 50 gallons of water. For smaller quantity, add 8 to 10 tablespoons of Dry Lime-Sulfur to 1 gallon of water.

Summer Spray for fungous diseases as Apple Scab, etc., and on all seed fruits such as apples, pears, quinces, etc. Use $2\frac{1}{2}$ to 3 pounds of Dry Lime-Sulfur to 50 gallons of water in combination with the usual proportion of Key-Dry or Paste Arsenate of Lead. For smaller quantity use 1 to 2 tablespoons of Dry Lime-Sulfur to 1 gallon of water.

Summer Spray on all stone fruits, such as peaches, plums, etc. Use 1 to $1\frac{1}{2}$ pounds of Dry Lime-Sulfur to 50 gallons of water in combination with the usual amount of Key-Dry Arsenate of Lead. For smaller quantity use $\frac{3}{4}$ to 1 tablespoon of Dry Lime-Sulfur to 1 gallon of water.

Combination Spray. Use 1 to 2 tablespoons (level) Dry Lime-Sulfur and 3 to 4 tablespoons Key-Dry Arsenate of Lead to 1 gallon of water or for a weaker solution use $\frac{3}{4}$ to 1 tablespoon (level) Dry Lime-Sulfur and 3 to 4 tablespoons Key-Dry Arsenate of Lead to 1 gallon of water.
